

YOUSSEF KHOURY

DATA • BUSINESS • OPERATIONS ANALYST

+961 76 813 116 | Email | LinkedIn | Portfolio | GitHub

PROFILE

Operations and reporting professional with 2+ years across order-to-delivery, project coordination and client service. Turns operational questions into reliable Excel, Power BI and SQL reporting, practical KPIs and clear next actions. Strong domain grounding in suppliers, delivery, invoicing, receivables and management follow-up; comfortable translating between operational users and reporting needs.

CORE SKILLS

Data & BI: Power BI, Power Query, basic DAX, SQL Server, Excel dashboards, PivotTables, data cleaning, validation, star schemas, model optimization, KPI design, visualization

Business Analysis: functional/non-functional requirements, user stories, acceptance criteria, as-is/to-be mapping, root-cause and gap analysis, UAT, RACI, RAID, Visio

Operations Systems: Dynamics 365 Business Central, Xero, order-to-delivery, purchasing, supplier coordination, invoicing, payment follow-up, issue tracking

PROFESSIONAL EXPERIENCE

Operations & Projects Lead | Alta Light Apr 2025 – Present

- Built the Excel dashboard used in weekly reviews to track project status, supplier performance, delivery risks, approval blockers, commercial value and next actions.
- Coordinate 40+ concurrent orders and projects worth \$1M+ across 20+ suppliers, from quotation and purchase order through production, shipping, delivery, invoicing and payment follow-up.
- Mapped the as-is/to-be order-to-delivery process, identified three recurring delay drivers and documented requirements, user stories, acceptance criteria, KPIs and RACI ownership; 3 of 5 recommendations adopted.

Administrator | UPM Aug 2024 – Feb 2025

- Built and maintained an Excel tracker for ~30 client accounts covering order status, delivery dates, outstanding balances and next actions.
- Reported delivery timeliness, overdue receivables and open client requests to management; reconciled account and delivery records against invoices and payments.
- Owned day-to-day client contact and maintained clear follow-up records across delivery, payment and service issues.

Financial Consultant | SNA Jan 2024 – Jun 2024

- Supported client needs assessments, underwriting submissions, policy documentation, claims, renewals and audit-ready records.

Project Coordinator | Facilitate International Apr 2023 – Dec 2023

- Coordinated 500+ construction, maintenance and residential service requests for US and Canada clients, tracking progress, issues, quality and updates.

FLAGSHIP PROJECT

Order-to-Delivery Control Tower | Power BI | SQL Server | Excel 2026

- Built a governed 420-order analytics model with a data dictionary, SQL star schema, reusable DAX measures and eight management KPIs covering value, margin, delivery, supplier risk and receivables.
- Delivered executive, supplier and root-cause views, an Excel control tower with validation and audit trail, and a management-ready case study.
